The low power (4uA @ 3.3V) flowmeter is designed to give high performance and competitive pricing with 6 flow ranges from 0.05 to 15 litres per minute. Its totally non-metallic wetted components makes this the ideal choice for the metering of aggressive chemicals including ultra-pure water. The standard inlet tubes are barbed to accept a hose size of 8mm although for OEM use alternatives are available. The bearings are made of sapphire for long life and reliability, the body is moulded PVDF as standard and the ‘O’ ring seal is typically Viton®.

**FEATURES**
- Low cost
- PVDF
- 1-2% FSD
- Sapphire bearings
- Low power sensor
- 6 Flow ranges
- 10 Bar rating
- Viton® seal as standard
- 8mm hose tails
- 0.1% Repeatability
- 3.3 V 4uA
- -25°C Min to 80°C Max
- 50gms

**IDEAL FOR**
- Drink dispensing
- Laboratory tests
- Cooling equipment
- Active flow alarms
- Semiconductor plant
- OEM applications
800 Series Low Power Flowmeter

At the heart of the meter is a precision turbine that rotates freely on robust sapphire bearings and contains chemically resistant ceramic magnets that are detected through the chamber wall by a low power detector. The output is a stream of pulses that are readily interfaced with most electronic display or recording devices. This combination of materials and technology ensures a long life product with reliable operation throughout.

PULSITE SOLO

2.8-3.6V battery

e.g. **865-V3P-O** is a flow range of 0.25 to 6.5 L/Min, Viton® seal, standard, PVDF bodied flowmeter with a 6 point traceable water calibration.

Standard Materials of Construction

- **Body and cap** - PVDF
- **‘O’ Ring seal** - Viton®
- **Magnets** - PVDF coated ceramic
- **Bearings** - Sapphire
